Date Completed: April 27, 2017
Location: AR 29/1-4.5 – AR 29/1-4.6
Accession Number: 2000.002

INTRODUCTION

The John Bartee Collection was donated by John Bartee, a former Agricultural Extension Agent for Montgomery County, Tennessee. This collection contains approximately 200 items, including 129 photographs, arranged into 2 boxes. Access to this collection may be permitted for the purposes of personal and scholarly research. The Montgomery County Archives requires that the following credit line be used in all publications to identify that the image or document used is from its holdings: *Courtesy of the Montgomery County Archives*. Specific citation of where the image or document is located (collection, box, folder, etc.) should be made in an acknowledgements section, footnote, or bibliography.

SCOPE AND CONTENT NOTE

In January 2000, John Bartee donated this collection of Montgomery County Agricultural Extension documents to the Montgomery County Archives. Under the Smith-Lever Act of 1914, the United States Department of Agriculture and the University of Tennessee College of Agriculture set up home demonstration and agricultural extension services throughout Tennessee. Both an agricultural extension county agent and a county home demonstration agent served the Montgomery County area. As part of this service, the agents organized demonstrations in each community to serve as an educational model for others. These community organizations met regularly and also worked together to design exhibits for the county agricultural fair. Specialized clubs operated within each community organization.

Early twentieth-century Montgomery County was a large producer of tobacco, corn, and hay. Livestock, particularly beef cattle and hogs, were raised by county farmers. The agricultural extension county agent sought to improve and diversify both crop and herd production by instructing farmers in methods such as crop rotation and culling. Local dealers also showcased different machinery for farmers. Through community clubs, local children raised their own livestock, including pigs, cattle, and chickens, and crops for profit. In addition to county and state fair competitions, club members participated in rallies, parades, and contests.

In 1912, Montgomery County hired a home economist named Carrie Lurton Johnson to help instruct county residents in matters of domestic science. With the passage of the Smith-Lever Act, Johnson became the official Montgomery County Home Demonstration Agent. Johnson and her successors traveled throughout the county to educate local women and girls on food preparation, canning, sewing, floriculture, gardening, poultry raising, home improvements, and related subjects.

The bulk of this collection consists of annual report documents (1914 through 1927) compiled by agricultural extension and home demonstration county agents. W.S. Baldwin, A.B. Harmon, and H.H. Jones served as agricultural extension county agents from 1916 to 1925. Carrie Lurton Johnson, Carrie Watkins, and Oma Worley acted as county home demonstration agents from 1914 to 1923. These annual reports showcase home economics and farming work being carried out in the communities of Montgomery County, Tennessee. Statistics recorded by the agents document community participation in all aspects of club work.

The collection was originally stored in a single box without an identifiable method of organization. Several loose folder pages labeled with data ranges and sometimes agent names were found in the box. Due to their poor condition, these pages were discarded after the preliminary inventory of the collection. All reports in their entirety are now available in digital form. Photographs have been removed from the reports. All photographs are housed in the Archives Photograph Collection.

CONTAINER LIST

Box 1

1. Newspaper Clippings--Miscellaneous Articles about Agriculture, 1921 (22 items)
 - “Our Farm and Community Page,” *Daily Leaf-Chronicle*, Clarksville, TN, March 3, 1921

 - Photograph--Tractor Demonstration Held on Mr. A.B. Cherry's Farm, 75 men attending, Montgomery County
3. Photographs--Report of Work of the County Agent Calendar Year 1920, A.B. Harmon, County Agent, Montgomery County, TN (17 photographs)
- Photograph--Montgomery County Council of Agriculture, Fair Exhibit
 - Photograph--J.H. Coke and Bro., Crimson Clover Field
 - Photograph--Corn Demonstration, E.C. Cunningham, President, County Council of Agriculture, Montgomery County
 - Photograph--Red clover demonstration where two tons of lime per acre was used, Mr. York says that the use of lime on one half of the field which was seeded to red clover increased the hay one ton per acre. This year he is using two cars of lime.
 - Photograph--Tractor demonstration preparing for alfalfa seeding. There were twenty-five farmers present we discussed the necessity of deep plowing.
 - Photograph--Cattle
 - Photograph--Two farmers standing with cow in front of downtown garage, Clarksville, Tenn.
 - Photograph--Boar
 - Photograph--Cattle in front of a log structure
 - Photograph--Cattle in front of a barn
 - Photograph--J.H. Coke, Jr., Clarksville, Tennessee Route 1, is a member of the Salem Agricultural Club. Produced 100 bushels and 40 lbs of corn on hill land. J.H. is an exceptional good club boy. According to the statement of his farther [sic] this land ordinarily would produce 50 bushels of corn per acre. The extra increase which was 50 bushels and 40 pounds cost 17 dollars.
 - Photograph--Duncan Basford and his pig in the above picture won first prize in the breeding class at the state fair. Also first place in Montgomery County Agricultural Fair.

- Photograph--Miss Elizabeth in the picture below with her sow and litter has been very enthusiastic club girl.
 - Photograph--The above boy, Sumner Neblett, Clarksville, Tennessee Route 1 has been a club member for the last two years. His profits on club work this year were \$150 dollars. Sumner says in his report that he expects to join the corn, pig and dairy club in 1921. He considers his club work a pleasure as well as profitable.
 - Photograph--Cleo Cox and pig, Sango
 - Photograph--G.E. Outlaw, Peach Orchard, Vanleer, Tennessee
 - Photograph--The above is a picture of one of our tractor demonstrations which was held on Mr. A.B. Cherries [sic] farm Clarksville, Route 5. Mr. Cherry states that since he bought his tractor it has been possible for him to farm a great many more acres and get a better yield per acre.
4. Photographs--Annual Project Report Year 1921, Montgomery County, TN, Miss Carrie Watkins, County Home Demonstration Agent (7 photographs)
- Photograph--“Willing Workers” of Liberty Club, 1921 (p. 108)
 - “The Liberty Community recently organized a Girls Club and entered into every phase of club work, canning, sewing, cooking, poultry and gardens and thru the long summer months they met regularly. They entered the bread contest, each girl making bread at club meeting and practicing at home.”
 - Photograph--“Pep” Club of Jordan Springs, 1921 (p. 108)
 - “The Jordan Springs Girls’ Club has been organized for three years and has a large membership of girls who are doing a splendid work and have won the greatest number of prizes at County Fair...year.”
 - Photograph--Just after a watermelon feast, 1921 (p. 110)
 - Photograph--Playing in the sand, 1921 (p. 110)
 - Photograph--Jars donated by Girls’ Club of Southside to be sold for payment on school piano, 1921 (p. 112)
 - Photograph--Girls’ Poultry Club member standing with flock, 1921 (p. 113)
 - Photograph--“Sunshine Club” of Hackberry Tenn. starting out on a culling tour of the community, 1921 (p. 117)
5. Photographs--Annual Narrative Report of Agricultural Extension Work, H.H. Jones, Montgomery County, TN, November 1, 1924-December 1, 1925 (19 photographs)
- Photograph--Community Lime Crusher operated by F.E. Redding. Since May 1st, 2500 tons have been crushed by this method. The platform makes possible the placing of each man’s tonnage in separate piles after it is weighed by automatic weigher as it comes from crusher and is caught in wheelbarrow as shown in the picture (photograph finished by Howard Studio, Clarksville, Tenn.) (p. 31)

- Photograph--Results of a hail storm just before cutting time. This tobacco was grown on land as shown in the picture below (p. 32)
- Photograph--This clover was followed by a tobacco crop, and totally destroyed by hail, as shown in the above picture (p. 32)
- Photograph--The labor question is no longer a problem with Mr. Sensing, who with his nine sons as shown in the picture, has successfully grown 34 acres of tobacco along with their other farm crops. He is a member of the County Tobacco Demonstration Club (p. 33)
- Photograph--Club Leader and County Agent assisting club boys in measuring club acres. Such demonstrations were given to seven clubs, attended by 85 boys (p. 40)
- Photograph--Giving the tobacco club acre the first working. Tobacco from this acre won prizes at both county and state fairs (p. 41)
- Photograph--Harvesting the crop (p. 41)
- Photograph--First boy in Montgomery County to "sign up" in "Lime-Legume Essay Contest." One hundred fifty four complete essays were written in the county (p. 42)
- Photograph--Paul and Schulyer Martin are real corn club members, winning first and sweepstakes on corn at county fair, and producing 70 bushels per acre. They planted Watson and Bufords White Dent (p. 42)
- Photograph--Each solving his own problem (p. 43)
- Photograph--Montgomery County Tobacco Show Exhibit (This Photograph by W.E. Barr, Nashville Banner, Nashville, Tenn.) (p. 46)
- Photograph--New Providence Community. This community has been organized a little less than two years. In the 1924 County Fair it took second place with a community exhibit. In 1925 it took first place at Tennessee State Fair in competition with similar exhibits from other communities of the county (p. 47)
- Photograph--Jordan Springs Community. A close second community exhibit in the Montgomery County Fair, falling below the winner only 8½ points, judged on a basis of 400 points (p. 48)
- Photograph--Kirkwood Community. Third prize community exhibit at county fair. Educational features in this exhibit were outstanding. A very attractive and appropriate feature of this exhibit was the tobacco barn in the background. This was made of tobacco, on beaver board. It features ventilation and the use of the thermometer (p. 49)
- Photograph--Liberty Community. Taking fourth place in community exhibits at the county fair. Liberty community was outstanding in the corn show in addition to a very attractive background (p. 50)
- Photograph--Boys Corn & Tobacco Show. Outstanding in educational features, as well as having 73 entries in tobacco and 14 in corn, the boys corn and tobacco

show proved a real feature of the fair. Ventilators, placards, pictures, etc. made the exhibit one of study and educational value throughout the fair (p. 52)

- Photograph--Club Rally Day. Three hundred twenty-five boys and girls, with local club leaders, teachers, parents and others interested, put club work before the people of Montgomery County in a new light, when they met in Clarksville for an all Day Rally and with club songs and yells, paraded the business sections of the town (group standing in front of the old Clarksville High School building, now the Penn Warren Apartments on Greenwood Avenue) (p. 53)
 - Photograph--The opposite picture shows the 105 boys and girls of New Providence Community, who wrote essays in the "Lime Legume" Essay Contest, and won the lime spreader offered by the Holden Lime Spreader Company, to the community writing the largest number of complete essays (Photograph by Guy C. Stephens, Clarksville, Tenn.) (p. 56)
 - Photograph--Home Canning Exhibit, Montgomery County Fair, 1925
6. Photographs--Annual Narrative Report of Agricultural Extension Work, Montgomery County, TN, 1926 (41 photographs)
- Photograph--Tobacco Field Meeting on the farm of Forest Suiter of St. Bethlehem Community. Sixty four men attended this meeting (p. 30)
 - Photograph--Tobacco Field Meeting on the farm of Day Williams of Hazelwood Community (p. 30)
 - Photograph--A Field Meeting discussing the merits of Korean. H.M. Meriwether tells his experience in growing 20 acres (p. 31)
 - Photograph--Lespedeza Field Meeting on the Hunter Meriwether farm. This is a field of Kobe (p. 31)
 - Photograph--The pan method of saving Lespedeza seed. From 3 to 8 bushels per acre can be saved by this method (p. 32)
 - Photograph--Threshing the 3 acres of Korean Lespedeza which made 86 bushels on the 3 acres (p. 32)
 - Photograph--Meeting at the orchard of M.H. Randle. This meeting was attended by 141 people and was one of the most interesting meetings on the "One Day Farm Tour" (p. 33)
 - Photograph--Grand Champion Ram at Montgomery County Fair 1926. This ram is owned by Henry Meriwether of Hazelwood Community (p. 34)
 - Photograph--Grand Champion Ewe at Montgomery County Fair. Ewe is owned by Henry Meriwether (p. 34)
 - Photograph--Grades sold for seven cents at local shipping point (p. 35)
 - Photograph--Good cattle, well fed and cared for, sold at nine cents at local shipping point same day as above cattle were sold (p. 35)

- Photograph--This barn was converted into a poultry house by Norman Rawlins at a cost of \$52.45. It will house 200 birds (p. 36)
- Photograph--One hundred forty people inspect this poultry house after it was made from the barn shown in the above picture (p. 36)
- Photograph--Poultry meeting at farm of Mell McMurry. The above brooder house was inspected at this meeting (p. 38)
- Photograph--Brooder house built by Mrs. Mell McMurry (p. 38)
- Photograph--Poultry culling school conducted by Poultry Specialist Berley Winton, on Poultry Demonstration Farm of Dr. Lee Norris (p. 39)
