

# Clarksville-Montgomery County Public Library

CLARIFYING THE ROLES BETWEEN COUNTY AND CITY GOVERNMENTS

## County

### Early Childhood Literacy

The Clarksville-Montgomery County Public library offers simple, innovative, and fun approaches to establishing strong early literacy skills for children in Montgomery County through interactive storytimes, hands-on programming, summer reading programs, and much more.

The goal of the public library is to motivate children to participate and become confident readers.

### Library Resources

The library has a vast amount of free online resources available to patrons. With just a library card, patrons can build a resume, take online classes, learn a new language, stream 1000s of movies or audiobooks, exam practice, learn a new skill or hobby, and much more. The library also offers no-charge notary services, meeting spaces, and private study rooms.

### Free Internet Connections and Wi-Fi

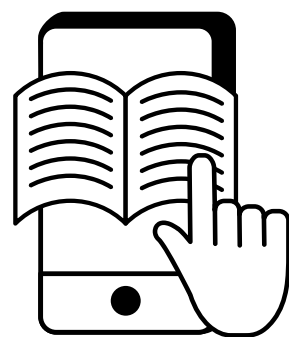

No-charge Internet access is available through public use computers and Wi-Fi throughout the library. Computer usage requires an active library card and Wi-Fi requires a personal device for connectivity. Public computers have Microsoft programs and applications that will allow for basic word processing with library staff able to assist. Black and white printing are available for \$.15 per page as well as mobile printing.

### Life Long Learning

With programs for all ages, the library strives to provide educational, recreational, and multi-generational programs and events designed to inspire creativity and life-long learning for all in Montgomery County.

## City

None
