

Courts Center Renovation – Phase III

Project Description:

The Courts Center was originally constructed in 2002 and renovated in 2018 to add two courtrooms to the 3rd floor. Additional major renovations were completed in 2025 to add two more new courtrooms to the 3rd floor area. In addition, an existing smaller courtroom on the 2nd floor was renovated to a full-size courtroom in early 2026. With these final courtroom additions to this facility, this building has been built out to its full potential.
