

Traffic Paint Bid FY27
Addendum #1 dated May 13, 2026

- 1. Please provide estimated annual volumes purchased and individual order quantities.**
Total Gallons of paint for the year and broke down by color, and truck load are:
 - White = 2.5 truck loads, 27 totes at 275 gal each, 7425 gallons total.
 - Yellow = 2.5 truck loads, 28 totes at 275 gal each, 7700 gallons total.The last load of paint for the year would be 6 totes of yellow and 5 totes of white, giving a truck a total of 11 totes per load. Some years the last load may change from 6 yellow to 6 white or 5 white to 5 yellow depending on paint used.
- 2. Can we stipulate pricing is based on some individual order quantity such as "full truckloads" or other quantity based on your minimum order designation? Pricing should be based on Full truckload.**
- 3. Can you accept both VAN and FLATBED truck deliveries? We can ONLY accept FLATBED trucks.**
- 4. What are the estimated quantities for the required product? Estimated quantities for Yellow and White are 15,125-gal total.**
- 5. What is the packaging for the glass beads? The Glass beads come in a 2,000-pound tote on a pallet.**
- 6. Will delivered good be a one-time delivery or will it be on an as needed basis? All paint and or glass beads will be on a as needed basis.**
- 7. Will you be able to list the quantities for the three (3) line items? . The listed line-item approximate quantities are:**
 - White paint 7,425 Gallons total
 - Yellow paint 7,700 Gallons total.
 - Glass beads would be 2 truck loads, at 20 = 2,000 lbs. pallets / totes per truck load total weight would be 40,000 lbs. Per truck for a total of 80,000. Amounts are approximate for year.
- 8. I will need to factor in how many truckloads that will be needed for this bid. 3 Trucks will be needed for paint, and 2 Trucks will be needed for glass beads. Approximate.**
- 9. Will this be a one-time delivery purchase? This will all be on an as needed basis.**
- 10. Will you require paint to be certified on your departments QPL or can we submit paint that meets the TDOT standards in my attachment? We will need ALL paint and glass beads to have a Certificate of Analysis and meet or exceed ALL TDOT standards.**
