

Bi-County SWM
Coarse Aggregate Bid
Questions and Answers

1. What hours will the landfill be able to receive deliveries?

Monday – Friday 5:30 AM to 4:00 PM

2. Would the landfill accept weights and tickets from the scales at our pit? We're going to weigh them anyway, and that would save the time of weighing at the landfill. Plus, if we are selling by the load we are limited to which trucks we can use, instead of whatever trucks might be available.

Yes, as long as the Pit Scales are certified scales. Also, Bi-County reserves the right to randomly weigh trucks for accuracy.

Also, Bidders still need to provide a per load price stating the size of the truck to be used.

3. Will we be hauling to a stockpile that we can access when it rains?

Yes, the stone will be stock piled and the area should be accessible during rainy periods.
